FRONTEND DEVELOPER

Summary

Frontend-focused software engineer with 4+ years of experience building scalable, responsive, and high-performance user interfaces. Adept at modern frontend frameworks and tooling, with a strong attention to detail and agile collaboration. Experienced in React, Next.js, Tailwind CSS, and Django REST. Currently exploring Web3 and blockchain integration to build decentralized applications (dApps). Proven ability to contribute in remote, distributed teams using modern DevOps and communication tools.

Technical Skills

- Languages: JavaScript, TypeScript, Python
- Frontend: React.js, Next.js, Tailwind CSS, Ant Design, HTML5, CSS3, Bootstrap
- Web3/Blockchain: Exploring Web3.js, Ethers.js, Solidity (basic)
- UI/UX Tools: Figma, Adobe XD
- Testing & Debugging: Chrome DevTools, Sentry, Jest
- Backend: Django, Django REST Framework
- DevOps & Deployment: Docker, Heroku, AWS, DigitalOcean
- Version Control & Workflow: Git, GitHub, Jira, Slack
- Databases: PostgreSQL
- Practices: Agile/Scrum, Remote Collaboration, Responsive Design, CI/CD

Education

M.Sc. Information Technology – National Open University of Nigeria

B.Sc. Computer Science – University of Benin

Professional Experience

Frontend Developer – Freelance (Dec 2022 – Present)

- Designed and developed responsive web apps using React, Next.js, Tailwind CSS, and Django REST.
- Integrated Stripe for billing, implemented real-time features using WebSockets and Django Channels.

- Built secure auth flows (JWT, Google OAuth), with CSRF protection and performance optimization.
- Contributed in remote teams using Git, Jira, Slack; applied accessibility and UI testing best practices.

Full-stack Software Engineer – Stackwizr (June 2024 – Jan 2025)

- Delivered pixel-perfect, performant UIs using React, Bootstrap, and JavaScript.
- Refactored legacy interfaces and improved loading times by up to 30%.
- Partnered with UX teams via Figma and streamlined deployments using Docker and Git.

Backend Engineer – Teqporte (Nov 2021 – Nov 2022)

- Maintained frontend components and ensured cross-browser support.
- Used Sentry for real-time monitoring and GitHub Actions for CI/CD pipelines.
- Engaged in remote collaboration through Slack and Jira workflows.

IT Assistant – Nigerian Ports Authority (July 2019 – Jan 2020)

- Built and maintained internal static websites using HTML/CSS.
- Provided tech support, laying the foundation for a frontend career.

Project Highlights

- Social Platform: Built a full-stack social media app with real-time chat, notifications, bookmarks, and threaded comments (React + Django REST + WebSockets).
- Pricing UI: Developed tiered pricing UI with Stripe integration.
- Collaboration Tool: Led frontend integration in a React-Angular monorepo for real-time co-editing.
- Open Source: Contributed to frontend tools and libraries (see GitHub profile).
